### Select Safety Information and Indication

#### Most important information you should know about Osphena<sup>®</sup>

Osphena works like estrogen in the lining of the uterus, but can work differently in other parts of the body. Taking estrogen alone or Osphena may increase your chance for getting cancer of the lining of the uterus. Vaginal bleeding after menopause may be a warning sign of cancer of the lining of the uterus. Your healthcare provider should check any unusual vaginal bleeding to find out the cause, so tell him or her right away if this happens while you are using Osphena.

Osphena may increase your chances of having a stroke or blood clots.

You and your healthcare provider should talk regularly about whether you still need treatment with Osphena.

Call your healthcare provider right away if you have changes in vision or speech, sudden new severe headaches, and severe pains in your chest or legs with or without shortness of breath, weakness and fatigue. Osphena should not be used if you have unusual vaginal bleeding, have or have had certain types of cancers (including cancer of the breast or uterus), have or have had blood clots, have had a stroke or heart attack, have severe liver problems, are allergic to Osphena or any of its ingredients, or think you may be pregnant. Tell your healthcare provider if you are going to have surgery or will be on bed rest.

#### Possible side effects of Osphena<sup>®</sup>

Serious but less common side effects can include stroke, blood clots and cancer of the lining of the uterus.

Common side effects may include hot flashes, vaginal discharge, muscle spasms and increased sweating.

Tell your healthcare provider about all of the medicines and supplements you take, as some medicines may affect how Osphena works. Osphena may also affect how other medicines work.

Duchesnay USA encourages you to report negative side effects of prescription drugs to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch) or call 1-800-FDA-1088.

#### Indication: What is Osphena<sup>®</sup> (ospemifene)?

Osphena is a prescription oral pill that treats moderate to severe painful intercourse, a symptom of changes in and around your vagina, due to menopause.

Please read **Most Important Information and Important Safety Information** including **Boxed WARNING** in the [U.S. Full Prescribing Information](#).

## HEALTHCARE PROFESSIONAL INSTRUCTIONS:

- 1 To use the Osphe<sup>®</sup> (ospemifene) savings offer, the patient will require a valid prescription for Osphe.
- 2 Instruct the patient to take the Osphe prescription, along with this savings offer, to a retail pharmacy.
- 3 To leverage the Mail Order (Osphe At Home<sup>®</sup>) program, prescribe Osphe by calling, faxing or ePrescribing through ProCare Pharmacy. Refer to their contact information listed on reverse.
- 4 Please refer to Restrictions and Conditions of Use.

## RESTRICTIONS AND CONDITIONS OF USE:

1. This offer is not available to individuals enrolled in Medicare, Medicaid, TRICARE or any other federal or state healthcare plan.
2. Federal law prohibits the selling, purchasing, trading or counterfeiting of this offer. Such activities may result in imprisonment of up to 10 years, fines of up to \$250,000, or both.
3. This offer is only good in the United States. Duchesnay USA reserves the right to rescind, revoke or amend this offer without notice at any time.
4. Patients and pharmacies are responsible for disclosing to insurance carriers the redemption and value of the CoPay and complying with any other conditions imposed by insurance carriers or third-party payers.
5. Void where prohibited by law.

## PHARMACY INSTRUCTIONS:

**For Patients with prescription coverage:** Submit the claim to the primary Third-Party Payer first, then submit the balance due to **OPUS Health** as a Secondary Payer as a co-pay only billing using Other Coverage Code indication. The patient pay amount will be reduced by the maximum value of the coupon set by the manufacturer and you will receive this in your next reimbursement from **OPUS Health**, plus a handling fee.

**For Patients without prescription coverage:** Please submit this claim to **OPUS Health**. A valid Other Coverage Code is required. The patient pay amount will be reduced by the maximum value of the coupon set by the manufacturer and you will receive this in your next reimbursement from **OPUS Health**, plus a handling fee.

By accepting this savings offer, the pharmacist certifies that (i) Osphe has been dispensed to an eligible patient, and (ii) use of the savings offer complies with all applicable laws and contractual or other obligations as a pharmacy provider.
